

Acrylic Distribution Box Dimensions

Overview

Standard acrylic box sizes typically range from 4"x4"x4" to 12"x12"x12", with common retail sizes being 6"x6"x6" and 8"x8"x8". Custom sizes can be manufactured to any dimension within production capabilities (usually up to 72"x48" for single pieces). The ideal acrylic box size should have 0.5-1 inch clearance around your product on all sides, accounting for material thickness (typically 1/8 inch to 1/4 inch). For retail displays, add 20% extra space for easy product access. As an acrylic manufacturer with over 10 years of experience, I've tried various applications. * For different colours and thickness, please refer to the DETAILS. Whether you're a collector showcasing rare action figures, a retailer highlighting premium products, or a homeowner displaying cherished memorabilia, the right acrylic display box can elevate your items while keeping them safe from dust, scratches, and damage. But with so many sizes, styles, and colors, it can be overwhelming to choose. It describes HA, HK, and LGD series boxes with dimensions ranging from 100-415mm in length, 105-323mm in width, and 75-140mm in height. 5" W x 10" H, interior dimensions. Made out of clear 3/16" material. UPS Ground Shipping. Luxa offers a wide range of compact, aesthetically appealing & elegant distribution boxes with unique user-friendly features.
