

Cable tray bend and reducer fabrication

Overview

The bends, tees, crosses, risers and reducers of wire mesh cable tray can be easily and quickly made live at the project by using a bolt cutter. Since the jaws of the bolt cutter drags a layer of zinc across the cut end and forms a protective layer. When a wire cable tray is cut, the fact that a. Ladder cable trays are critical components in modern electrical infrastructure, providing robust support and organization for cables. These cable tray fittings and accessories are essential for the seamless installation of an integrated cable management. Incorporated in the year 2001, we HAF Fabrication are amongst the prominent names engaged in Manufacturing, Exporting and Supplying of a wide range of Cable Trays all over the world. Our company is a trusted manufacturer of high-quality bends for cable trays, engineered to provide seamless transitions. Perforated Cable Trays are mostly used and also known as Ventilated Trays Perforated Cable Trays are most commonly used cable trays in both local as well as international markets. Perforated Cable Trays are manufactured from single sheet metal.
