

Cameroon Fiber Optic Cable Relocation Project

Overview

Cameroon's incumbent telecom operator, Camtel, has announced the deployment of an additional 3,500 km of fiber optic cable starting in 2024. Speaking about the project last October 17 during the Yaoundé Digital Week, MD Judith Yah Sunday said it primarily targets rural areas. Implementing this, Cameroon is set to bolster its digital infrastructure through a significant financing agreement following a presidential decree signed on March 6 by President Paul Biya. This decree authorises the Minister of Economy, Planning and Regional Development to finalise a loan arrangement with the.
