

Columbia Connector Box 4-Core

Overview

JFFTB-04-A1 terminal box is designed for FTTx project, desk mounted or wall mounted. It can function optical fiber splicing, storage and patch cord connection. The top cover is fixed on bottom by buckle, easy to. The Fiber Optic Distribution Box is a multifunctional termination point to connect feeder cables with drop cables in FTTX communication network systems. It offers mechanical protection for fiber and pigtail management, integrates splice and termination in a compact form, and features user-friendly operation. The ATB-D4-SC FTTH 4 Core DIN Rail Terminal is a versatile fiber optic terminal designed for Fiber to the Home (FTTH) applications. It serves as an indoor fiber outlet, connecting drop cables to end-user devices and ensuring stable, high-speed optical. *Total enclosed structure, be in nice shape; *Material: PC+ABS, wet-proof, water-proof, dust-proof, anti-aging, protection level up to IP65; *Clamping for feeder cable and drop cable, fiber splicing, fixation, storage, distribution.
