

Columbia galvanized cable trays are available in a full range of specifications

Overview

Cable Tray Systems: We provide light, medium, and heavy-duty cable trays, available in pre-galvanized and hot-dipped galvanized finishes. Widths range from 50mm to 600mm, with lengths in 1-meter and 3-meter options, ensuring adaptability to various project needs. Hi-Wire™ wire mesh basket trays are a budget-friendly alternative to other cable management solutions for supporting groups of cables. WireRun® Cable Trays can be installed either in a ceiling, in a raised floor or along a wall with brackets, and are easily altered to make turns to complete the. Our product range includes stainless steel cable trays, galvanised cable trays, and wire cable trays, available in multiple cable tray types — closed, perforated, ladder, and wire-mesh. Each system is designed to ensure strength, corrosion resistance, and long-term performance in the most demanding. certification requirements and applications. Whether specifying a major new project, refurbishing existing facilities or doing the engineering, procurement and construction (EPC) for your end user, with T&B Cabletray, ABB offers reliable solutions du g conforming to ASTM A123 & ISO 1461 : m. These metal trays, coated with a special zinc shield, resist rust and last a long time, even in tough environments. These are slick, polished, and cheaper. Ordinarily, the coating thickness ranges between 12 and 20microns (Z120-Z275). They are ideal in office buildings or factories that are clean.
