

Commissioning of Romanian Cable Tray Project

Overview

Brazi Vest – Teleajen – Stalpu Line is a 400kV overhead line from Brazi Vest, Prahova County, Romania, to Stalpu, Buzau County, Romania. The project, which is currently in the planning stage, is expected to be commissioned in 2024. In its fundamental form, commissioning means testing every device, process and procedure in an integrated systems solution to ensure the final specification operates as planned and according to the owner's design. It is not a one-time endeavor, but a lifetime process. Listed below are the five largest transmission projects by. Italian cable producer Prysmian announced that it will invest EUR 23 million at its Romanian electric cable plant in Slatina under a project that started in February and will be completed within three years. The electric cables produced by Prysmian at its Slatina factory are mainly aimed at. With headquarter in Slatina, Prysmian Romania is one of the leading cable manufacturers in the country and in Europe. Our durable, high-quality trays come. NRG Cables continuously improves its competencies and expands its product portfolio to adapt to market dynamics. Our products serve essential sectors such as electrical infrastructure, construction, command and control industry.
