

Diode laser with pigtail

Overview

Pigtailed Laser Diode Modules are available with VIS and NIR wavelengths ranging from 405 to 1550nm, with output powers ranging from 1 to 100mW. Their plug and play operation make these laser diodes ideal for a wide range of laboratory and OEM applications. LIV and spectral measurements can be downloaded by clicking the red icon corresponding to each serial number. This webpage contains Thorlabs' pigtailed laser diodes with. Newport's Fiber Pigtailed Laser Diodes are Fabry-Perot lasers with a single-mode fiber pigtail precisely attached for optimum coupling efficiency. LD-635-11A Laser Diode, Fiber Pigtailed, 635 nm, 0.905 nm and 1550 nm versions available. These diodes feature high output power, excellent beam quality, and high reliability, and are widely used in fields such as biomedicine, precision.

Article Content

915nm Laser Diode (300 WATTS)

These high power 915nm laser diodes deliver up to 300W of output power with an emission bandwidth of 5 nm. The multimode fiber pigtail has a 200µm core, NA

[DL-3328S-VFS Datasheet \(PDF\)](#)

Part #: DL-3328S-VFS. Download. File Size: 101Kbytes. Page: 2 Pages. Description: 1310 nm DFB LASER DIODE MODULES UNCOOLED MQW DFB LD WITH PIGTAIL. Manufacturer: Optoway

Pulsed Laser Diodes with Fiber Pigtail

Pulsed Laser Diodes with Fiber Pigtail Fiber pigtailed pulsed laser diodes. 905 nm and 1550 nm versions available. Quick selection! Click here to find the laser diode you need and check its data sheet. [Laser](#)

CW Single-mode/Polarization-maintaining Pigtailed

SIMTRUM offers continuous-wave (CW) single-mode/polarization-maintaining (SM/PM) pigtail laser diodes covering the 405–1550 nm wavelength range.

[DL-5338-1650-XSS Datasheet \(PDF\)](#)

Part #: DL-5338-1650-XSS. Download. File Size: 91Kbytes. Page: 2 Pages. Description: 1650 nm DFB LASER DIODE MODULE UNCOOLED MQW DFB LD WITH PIGTAIL. Manufacturer: Optoway

Pigtailed Laser Diodes | Single Mode Fiber Coupled

Single-mode fiber coupled pigtailed laser diodes are available from World Star Tech. Pigtailed single-mode fiber coupled lasers are also available with polarization

Pulsed Laser Diodes with Fiber Pigtail

Find the right laser diode with just a few clicks. Just select your specifications in the search mask and you get an instant overview of all the laser diodes that meet your requirements.

1555 nm laser diode

Laser diodes are classified based on continuous operation - Contact us for any special requests regarding classification or power limitation.

1510 nm laser diode

1510 nm laser diode - DFB Model 1 : >10 mW / singlemode fiber / 14 pin Butterfly with isolator / SMF or PMF

Pigtailed Laser Diodes, MM Fiber

Our high-quality MM pigtail alignment process for laser diodes includes multiple test and inspection points that ensure that the coupling efficiency is maximized.

Pulsed Laser Diodes with Fiber Pigtails

LASER COMPONENTS Canada, Inc. assembles micro-optics, fast axis collimation (FAC) lenses, directly in front of the pulsed laser diode chip. Housed in a TO-46 housing, the beam

Pigtailed Butterfly Laser Diodes

The VHG lasers with a multimode fiber pigtail are ideal for applications requiring high powers. We also offer single-frequency lasers (SFLs) with Distributed Bragg Reflector (DBR), VHG, External Cavity

Novel low-cost high-speed optic-electric laser diode pigtail module ...

A laser diode pigtail module package achieves the best coupling efficiency. A high-speed laser diode pigtail for wide-band fiber-optic communications is a key component in optical fiber user

Pigtailed Laser Diode Modules

Pigtailed Laser Diode Modules are available with VIS and NIR wavelengths ranging from 405 to 1550nm, with output powers ranging from 1 to 100mW. Their plug and

Single Mode Fiber Pigtailed Laser Diodes | High Precision Fiber

Our selection includes various wavelengths, power levels, and packaging options tailored to your system requirements. Single mode fiber pigtailed laser diodes integrate a laser diode chip permanently

Pigtailed Laser Diodes, MM Fiber

Diodes can be temperature tuned, which will alter the lasing wavelength. The reliability of the laser diode/pigtail rapidly declines at higher temperatures.

Pigtailed Laser Diode Modules

Pigtailed Laser Diode Modules feature an integrated driver for plug and play operations, making them ideal for laboratory and OEM applications. Shop now

Home | Hamamatsu Photonics

The official website of Hamamatsu Corporation whose mission is to advance science and industry through photonic technologies. Our products include optical sensors

Fiber Pigtailed Laser Diodes

ProPhotonix offers a range of compact and robust Fiber Pigtailed Laser Diodes, providing stable output at wavelengths from 635nm to 1550nm coupled into single

Single Mode Fiber Pigtailed Laser Diodes

These laser diodes have a one-meter single-mode fiber pigtail. All fiber pigtails are terminated with FC/PC fiber optic connectors except LD-1310-31B with FC/APC.

TUTORIAL: Laser Diodes & Pigtailing

TUTORIAL: Laser Diodes & Pigtailing LASER is an acronym for Light Amplification by Stimulated Emission of Radiation. The diode laser is the most compact among all commercially available laser

Novel low-cost high-speed optic-electric laser diode pigtail module ...

The new high-speed optical transceiver laser module is composed of a pigtail optical transmitter and a laser diode pigtail optical receiver. The main function of this module is to produce

Pulsed Laser Diodes with Fiber Pigtail

Pigtailed Pulsed Laser Diodes LASER COMPONENTS Canada, Inc. presents fiber-coupled pulsed laser diodes at 905 nm and 1550 nm. The high coupling efficiency of these lasers is achieved through a

Pros & Cons of Pigtailed Laser Diodes vs. detachable

Approximately half of the laser diodes that we provide here at RPMC Lasers are fiber-coupled. For this reason, we have decided to build upon our recent two-part

Pulsed Laser Diodes with Fiber Pigtails – Also Customer

LASER COMPONENTS Canada, Inc. assembles micro-optics, fast axis collimation (FAC) lenses, directly in front of the pulsed laser diode chip.

Fiber Pigtailed Diode Lasers

Fiber pigtailed diode lasers are compact laser devices where the laser diode is directly coupled to an optical fiber. This configuration allows the laser light to be efficiently transmitted
