

Dubai 35KV Busbar Tunnel

Overview

On the sidelines of the World Governments Summit 2026, The Boring Company has signed a definitive partnership agreement with Dubai's Roads and Transport Authority (RTA), to commence the implementation of a cutting-edge passenger transport tunnel project in the Emirate of. On the sidelines of the World Governments Summit 2026, The Boring Company has signed a definitive partnership agreement with Dubai's Roads and Transport Authority (RTA), to commence the implementation of a cutting-edge passenger transport tunnel project in the Emirate of. Emirates Global Aluminium (EGA) Jebel Ali operates seven potlines with six different pot technologies. Each potline consists of sections of pots and busbar linkages, connecting these sections. The linkages consist of passageways between pot sections, end of potline crossovers, emergency crossovers. The body of the E-Line CCR busbar is formed using DURACOMP, a composite material of epoxy resin and pure silicon with Aluminium housing body which gives protection against arduous environments and high impact. The E-Line MV Series Busbar Systems, as the newest addition to the busbar product range. The Dubai Metro Blue Line project will serve nine districts projected to reach a population of approximately one million by 2040. Mohammed bin Rashid at the launching of tunnelling works for Dubai Metro Blue Line. The Government of Dubai has launched tunnelling work on the Metro Blue. The Client for all works is the Dubai Roads & Transport authority (RTA) for which two lines of the metro system are currently under construction totalling some 70km route length, of which 13km will be in tunnel, beneath central Dubai and the Dubai Creek. 1km long Red Line will have 29. Dubai Electricity and Water Authority (Dewa), awarded the Strabag Dubai LLC, Strabag AG, Andritz Hydro (Austria) and Ozkar Insaat (Turkiye) consortium the EUR340 million (AED1.
