

General Distribution Box Cover

Overview

Distribution box cover is a protective cover that provides extra protection to the junction box from external hazards. It is used for low voltage electric insulating switchboards and industrial boxes. No matter how harsh the environment is, there is always a proper enclosure for your needs. Thanks to protection ratings and high quality plastic (from 65 x 65 mm up to 361 x 254 mm) plus 3 different cover heights are available. Schneider Electric provides complete protection for your critical operations with advanced uninterruptible power supply systems (UPS) and durable electrical enclosures. Together, these solutions ensure that your equipment remains powered, protected, and secure in any environment—whether in data. Unique, innovative, versatile enclosure made of ABS or polycarbonate UL 94 V0 • Patented, innovative, hinged quick-release catch technology without screws: open with a screwdriver, close by hand • More than 25 sizes and 150 standard. such as mechanical engineering, for example, as classical. E-Abel's broad range of multitasking distribution boxes offer a variety of sizes, cutouts and optional features – all in one general design. Specialized Boxes: DBS (British standard), DX-AT (with ATS), GYFZ3 (industrial), and GYM1. Prevent the accident! Follow Us on Facebook! Blank cover for distribution boxes L=108mm, 1x6 mod.
