

Guiyana Galvanized Cable Tray Material

Overview

They are a type of cable support system manufactured from steel sheets coated with a zinc layer through a hot-dip galvanization process. This zinc coating provides exceptional protection against rust and corrosion, making it ideal for use in harsh environments. We offer top-notch Galvanized Cable Trays in Guyana. We believe in building fruitful business partnerships. Every buyer chooses us. We manufacture cable trays in three ways: Hot Dip Galvanized (Galvanizing as Per IS-2626, equivalent to ASTM A123), Pre-Galvanized Finish (Material as Per IS-277, Material Grade E250A, equivalent to ASTM A36). Our range is customized and passes stringent quality tests, before. Cable Trays are designed to meet most requirements of cable and electrical wire installations and comply to local and international standards of fabrications and finishes.
