

Hpsan Fiber Optic Switch

Overview

Are you struggling to meet the I/O demands of hyperscale virtualization, cloud, or growing flash-based SANs?

HPE Storage Fibre Channel Switch B-series SN3600B provides Gen6 32Gb Fibre Channel (FC) in an ultra-dense 1U format from 8-ports up to 24-ports, and is affordable for. Are you struggling to meet the I/O demands of hyperscale virtualization, cloud, or growing flash-based SANs?

HPE Storage Fibre Channel Switch B-series SN3600B provides Gen6 32Gb Fibre Channel (FC) in an ultra-dense 1U format from 8-ports up to 24-ports, and is affordable for. Access product support documents and manuals, software, download drivers by operating environment, and view product support videos. You are viewing the most relevant and current results for this product. Did you find what you need?

Was it easy to find?

HPE 8/8 SAN Switch: Access product support. A SAN extension is considered an Inter Switch Link (ISL) connection between two Fibre Channel switches over extended distances. Extended distances are considered to be greater than 500 meters for 1 Gbps Fibre Channel switch pairs, or through an IP network using pairs of Fibre Channel over IP (FCIP). The 8/80 SAN Switch is an 8Gb Fibre Channel Switch and delivers up to 80 ports in a 2u footprint. The switch is available in two models switch devices to manage compared to traditional 32- or 40-port edge switches. The 8/8 Base SAN Switch and 8/8 SAN Switch provide SAN connectivity that simplifies IT management. HPE Storage Networking offers a portfolio of high-performance, multiprotocol switches that have been rigorously tested and qualified for diverse SA...
