

Is broadband installed without a distribution box

Overview

Cabling should be a 'star configuration' and include a home distribution box. Are normal connections without a fibre box installation inside the house not being offered anymore?

I am only being offered Full Fibre Essentials, 1, 2, 100, 500 and 900 when I attempt to set up a package. We have a BT box outside and a normal open reach BT socket on the inside. The landlord has. If you're a landlord of a single dwelling unit (such as houses, bungalows, and individual properties) this page will explain what you need to know about broadband installation, property benefits, and long-term investment value. Run four Cat6 cables (with RJ45 jack points) from the home distribution box to the main entertainment hub and at least two Cat6. Communal TV and broadband systems are shared infrastructure installations that deliver television, satellite, and internet services to all flats within a block from a single, centrally managed installation. Run 20mm PVC conduit from the home.
