

Lifu Optoelectronics Single-Mode Fiber Optic Transceiver

Overview

These transceivers are engineered for long-distance applications, supporting distances from 10 km to 180 km depending on the model and wavelength. They are compatible with a variety of networking devices, including those from Cisco, and are available with LC Duplex and LC Simplex. Singlemode Fiber Optic Transmitters, Receivers, Transceivers are available at Mouser Electronics. Founded in November 1994, Tianjin Lifu Optoelectronics Technology Co. is a national high-tech enterprise located in Tianjin's Xiqing Economic Development Zone. As one of China's earliest companies specializing in the research, development, manufacturing, and sales of optical fiber cables. SFP (Small Form-factor Pluggable) transceivers are essential components in modern fiber optic networks, enabling network devices such as switches, routers, and servers to transmit and receive data over optical fiber.
