

Metering Distribution Box JXF

Overview

It is used in the AC 50Hz power, lighting and circuit systems with the voltage of 500V and below for power distribution control, monitoring and metering protection, mainly suitable for many places such as industrial and civil buildings, industrial and mining enterprises . It is used in the AC 50Hz power, lighting and circuit systems with the voltage of 500V and below for power distribution control, monitoring and metering protection, mainly suitable for many places such as industrial and civil buildings, industrial and mining enterprises . JXF Series Power Distribution Box product is box assembled with various control functions by customer-selected components, and there are many box sizes and specifications and the size of the box can be customized according to the size of the installation elements. It is used in the AC 50Hz power. The JXF distribution box is suitable for 50Hz, 500V and below three-phase three-wire, three-phase four-wire, and three-phase five-wire systems with load currents not exceeding 250A. Suitable for various buildings, industrial, and commercial settings, it enhances the reliability and safety of power systems. The product features a. About USYUEQING CITY RUIHUA CABINET WHOLE SET EQUIPMENT is a professional manufacturer of low voltage electrical products in South China.

Article Content

JXF distribution box

The main structure consists of a box body, a box top, a box door, and an inner door. All parts are waterproof and corrosion-resistant. The bottom of the box is equipped with cable entry and exit

JXF Electric Distribution Boxes

Discover efficient jxf electric distribution box solutions designed for optimal power distribution. Enhance your operations with reliable, durable equipment tailored to your needs.

JXF2515 metal distribution box-Yueqing Lovadon

Metal distribution box JXF2515 metal distribution box (JXF indoor/JFF outdoor) enclosure box is designed to be assembled into the distributing box with various
