

Nordic Small Busbar Desktop Installation Solution

An Extensive Library of Self-Developed Products

Overview

The new Nordicab low voltage distribution cabinet with the Z-busbar system enables safer and more convenient installation. We are a professional installation team with broad experience in the installation of busbars, in addition to intrantransportation, rebuilding, maintenance and replacement of complete panels on site. Circuits can be added and removed easily as they are located just above their respective racks. They resist both impacts and the elements, and ensure durability and safe, reliable electrical distribution in all. A leading provider of bus bar solutions, Methode Power Solutions Group delivers products that meet RoHS and REACH standards, as well as assemblies that are UL certified. We provide sales, engineering and manufacturing support from our facilities in North America, Europe and Asia. We manufacturer the world's most advanced and flexible Design Verified busbar systems. Busbars systems utilize standard 10 mm flat bars and are a.
