

Panama Fiber Optic Trench

Overview

Columbus Networks will invest \$2 million to lay 100 km of fiber optic cable underground in Panama City. The company plans to install a cable line that will run under the Southern Corridor road. Imagine sending an email, streaming your favorite show, or video chatting with loved ones—this is all made possible by cables running beneath the ocean. What if I told you Panama, known for its iconic canal, plays an equally important role in keeping the digital world connected?

That's right! Just. Trans Ocean Network and Ocean Networks, Inc. have signed an MOU for Trans Ocean Network to provide landing party services and infrastructure in the Republic of Panama for the Caribbean Express (CX) submarine cable system. more Audio. Sparkle, the first international service provider in Italy and among the top ten global operators, and Trans Ocean Network, a Panamanian telecommunications company, have agreed to form a strategic joint venture in Panama for the construction of an open landing and connectivity center that aims to. Century Link Communications wish to raise awareness of the local maritime community as to the presence of their submarine fibre optic cables that make landfall at Amador, in particular in the area close to designated merchant ship anchorage adjacent to Flamenco Island.
