

Price Comparison of Vertical and Horizontal Cable Trays

Overview

- Steel systems offer lowest upfront costs at \$2-8 per foot but require more maintenance in corrosive environments
- Aluminum options cost \$6-12 per foot with lighter weight reducing installation expenses by 15-20%
- Fiberglass systems range \$8-15 per foot but provide superior.
- Steel systems offer lowest upfront costs at \$2-8 per foot but require more maintenance in corrosive environments
- Aluminum options cost \$6-12 per foot with lighter weight reducing installation expenses by 15-20%
- Fiberglass systems range \$8-15 per foot but provide superior.

Cable trays will tend to be significantly less expensive to use in 2026 than metal pipes due to their faster installation.

8. 3 What is the Best Way to Save Money?

The selection of the method. Ask ten buyers about cable tray cost, and most of them will point to the rate per meter. That number matters, but it's rarely the one that decides whether a project stays within budget. The real cost shows up later, during installation, during upgrades, and during the first few years of operation. Steel cable trays cost \$8-15 per foot vs aluminum at \$7-12 per foot vs fiberglass at \$10-18 per foot. Installation costs typically add 40-60% to material costs for professional wireway systems. Heavy-duty industrial applications favor stainless steel (\$12-20 per foot) despite higher upfront. Hubbell's NEXTFRAME® Ladder Tray is the effective and widely used cable runway that supports and delivers bundles of cable between cabinets, racks, and closets, along walls, and suspended from ceilings. The Ladder Tray features light, rugged, tubular steel construction. It is designed for. Bahra Electric Cable Trays are an essential component of any well-designed electrical infr...
