

Singapore-branded 400G active optical fiber cable

Overview

The SO-QSFPDD-AOCxxM-4 is an Active Optical Cable (AOC) solution for short-range multi-lane data communication and interconnect applications. The solution consists of two QSFP-DD transceivers connected via an OM4 MultiMode optical cable of different lengths for 400Gbps Ethernet. The 400G QSFP-DD active optical cables are designed for use in 400 Gigabit Ethernet links over OM4 multimode fibres, and contain eight multi-mode fibres (MMF) optic transceivers per end, each operating at data rates of up to 53Gb/s. It has a single power supply of 3. Designed for high-performance computing and networking environments, they enable fast data transfers with reduced electromagnetic interference. These are often referred to as glass fibre cables. To be more precise. Device Electronics is a prominent supplier of fiber optic cables in Singapore, focusing on providing high-quality products for various applications.
