

Spanish Glass Bridge

Overview

The Pasarela Colgante de Jolúcar was designed by architect Jorge Suso Fernández-Fígares and is the first suspension bridge in the Mediterranean. The bridge has a length of 60 metres and a height of 35 metres. It forms a breathtaking viewpoint over the Alborán Sea. Meanwhile, the most. The Segovia Viaduct is a viaduct in the La Latina neighborhood in Madrid, Spain. A later version was built in 1934 to replace the. Nestled in the heart of the Costa Tropical, this suspension bridge, which is situated at an altitude of 35 metres and covers a length of 60 metres, offers unique views of the Alboran Sea. Granada is known for its mountains, its historical monuments and its rich culture, but few know that it is also. Do you already know this suspension bridge over the Mediterranean Sea in Spain?

The famous Senda Litoral (coastal path) will eventually connect the towns of Nerja with Manilva along the coast. It can. This is precisely what happened in Bilbao following the completion of the Zubizuri Bridge (Basque for “white bridge”), also known as “the Calatrava bridge” or the “Campo de Volantín pedestrian bridge”.

Segovia Viaduct

Since initial completion, the structure had always been a place that many people chose to commit suicide. This culminated in the 1990s, when suicides occurred at a rate of at least four per month. Even the first viaduct had to be fenced off due to multiple suicides. The total is unknown, but this would put the number at well over 500 just for the 20th century. It was often locally referred to as the suicide bridge. In October 1998, under the term of José María Álvarez del Manzano, the City of Madrid installed thick acr
