

Specifications of Landscape Greening Distribution Boxes

Overview

They range from simple 4 hole distribution boxes to the large 'Rhino' 10 hole box. All boxes are made from robust polypropylene (that will never rust) and are supplied with seals, and lockable green (pedestrian rated) covers to blend into landscaped environments. Plants stimulate inspiration, creativity and motivation Upgrading real estate value. Finished seams Optigrün Aluminium Plant Containers and Edge Elements are light when empty and therefore easy to handle. Ed Gilman from University of Florida, Jim Urban, FASLA, and Brian Kempf and Tyson Carroll of the Urban Tree Foundation have developed a modern, up-to-date, and peer reviewed set of details and specifications in AutoCAD, PDF, and Microsoft Word formats for the green industry. These systems collect and filter stormwater through layers of mulch, soil, and plant root s stems where pollutants are retained, degraded, and absorbed. In practice, they are often used to add a touch of greenery to terraces or balconies, create a representative highlight in a building entrance, or provide privacy in outdoor areas.
