

Taiwanese Single-Rack Micro-Module Data Center Brand

LoRawan outdoor base station

- * Industrial Internet gateway
- * Compatible with LoRaWAN network,
- * ClassA/B/C mode
- * Support 8/16 channel
- * Supports PoE power
- * supply and backup battery power supply
- * 10KV lightning protection

Overview

Huawei delivers prefabricated modular data center solutions with One Module One DC and container data center designs, enabling fast deployment and scalable data center delivery. The product of IDU micro data center is a new generation of alternative solution to small IT room, with complete integration of fire, dynamic environment monitoring system, power supply, distribution systems, battery, cooling system, cabinets and containment and the hot aisles and cold aisles are. To address this, Unitronic has launched a brand new rack-level Modular Data Center that perfectly matches the business needs of small and micro data centers. IDU Micro Integrated Data Center products are an alternative solution for a new generation of small IT computer rooms. IDU fully integrates. For public cloud and large colo DCs, IDCs, and medium- and large-sized DCs of carriers, enterprises, governments, and financial institutions For small- and medium-sized DCs of governments, enterprises, and carriers, and small- and medium-sized IDCs For small equipment rooms in government. Delta InfraSuite is a new generation, highly integrated modular datacenter solution. provides data center products and solutions of different scales according to customer needs, including edge data centers, small and medium-sized data centers, and large data centers, with the ability to integrate products, solutions, and deliver integrated. The single-rack unit has a 6kVA UPS, with a fire protection system and an infrastructure monitoring system to watch over your most critical data. The high-quality manufacturing of the IDC mini ensures the extreme efficiency and reliability in keeping your data safe.
