

Using 3570 as the core switch

Overview

Intelbras SC 3570 series switches implement a hardware-based IPv4/IPv6 dual-stack platform, support a variety of tunnel technologies, rich IPv4 and IPv6 Layer 3 routing protocols, multicast technologies and policy routing mechanisms, providing users with complete IPv4 /IPv6. Intelbras SC 3570 series switches implement a hardware-based IPv4/IPv6 dual-stack platform, support a variety of tunnel technologies, rich IPv4 and IPv6 Layer 3 routing protocols, multicast technologies and policy routing mechanisms, providing users with complete IPv4 /IPv6. I have 3570 as the core switch on my network which has 12 vlans. I am planning to upgrade the core switch as its not gig ports. I have a 2960x (48 ports) in my store. Cisco Catalyst 3650 In my network I have 40 switches with around 500 clients connected. I want use 20 VALN, there should to be no. High-performance manageable switches for the access layer in enterprise network infrastructures. Switches with essential features for enterprise networks such as static routing, RIP, OSPF, IS-IS, BGP, IPv4/IPv6, virtual stacking, Vlan, QoS, ACLs.
