

Where to buy 8-core long-distance optical cable

Overview

Mouser offers inventory, pricing, & datasheets for 8 Fiber Fiber Optic Cable Assemblies. This cable has an 8-core structure that allows data transmission over long distances without loss. It is characterized by a narrow core, about 8 to 10 microns in diameter. To order simply type in the number of metres you require in the quantity box. Ideal for telecommunications, data centres and networking applications, our fibre optic cables are available in single-mode and multimode configurations. Fiber optic cable is designed to transmit data using light signals instead of electricity, making it faster, more secure, and immune to electromagnetic interference compared to traditional copper cables. An optical fiber cable delivers signals over long distances with minimal attenuation, enabling.
