

Which company is the partner for the 1.6T silicon photonics module

Overview

Tower Semiconductor is making a significant move in the AI hardware arena, announcing a partnership with NVIDIA to deliver 1.6T data center optical modules. 6T data center optical modules designed. In the 13th annual Lightwave Innovation Reviews, Marvell received awards for two of its optical connectivity products: the active copper cable (ACC) linear equalizers and 1.6T silicon photonics light engine. Outstanding honoree status on the 5.6T DR16 NPO linear silicon photonics engine, confirming that the NPO (Near-Packaged Optics) ecosystem—both domestically and internationally—has now taken shape. The 1600G NPO adopts a socket-based form factor. The product dimensions. Innolume GmbH (Germany) a pioneer in Quantum Dot (QD) laser technology, and Genuine Optics (US), a top global Optics supplier, today signed a Memorandum of Understanding (MoU) to establish a strategic collaboration focused on high-reliability QD-based 1. Under this. OpenLight's PASIC platform enables the design and manufacture of breakthrough, 3. -- (BUSINESS WIRE)-- Jabil Inc. These transceivers join Jabil's expanding.

China's Sunrise announces 1GW US lithium battery

TSMC joins Applied Materials' EPIC Center as founding partner Applied Materials has announced a new innovation partnership with TSMC at its

Custom Silicon & Data Center Drive Marvell Q1 FY 2026

The company also expects continued strength in custom silicon and electro-optics, with AI infrastructure momentum carrying into the H2 FY 2026.

GIGALIGHT Successfully Launches First-Generation XT-1.6T DR16

According to the roadmap, GIGALIGHT will soon introduce the second-generation 1.6T DR16 NPO linear silicon photonics engine, further validating its readiness for commercial

Tower Semiconductor Partners with NVIDIA on 1.6T Silicon Photonics

On February 5, 2026, Tower Semiconductor announced a collaboration with NVIDIA to scale AI infrastructure using its advanced silicon photonics platform for 1.6-terabit data center optical modules

3.2T and 1.6T | OpenLight Photonics

OpenLight provides individual components die, Starter kits and Evaluation kits to support customers with their own 3.2T and 1.6T PASIC design, development and testing. OpenLight's heterogenous

LeydenJar secures €23M to launch silicon anode

Dutch deep-tech company LeydenJar, which is developing a commercially viable 100% pure silicon anode for lithium-ion batteries, has

Silicon Photonics Market Size & Share Analysis

The Silicon Photonics Market worth USD 3.96 billion in 2026 is growing at a CAGR of 27.19% to reach USD 13.18 billion by 2031. Intel

OFC 2026: Broadcom Paves the Path for the 200T AI Era

At OFC 2026, Broadcom took the optical industry's biggest stage to demonstrate the future of scaling AI infrastructure. The company unveiled groundbreaking technologies designed to address

Tower Semiconductor Partners with NVIDIA to Double Data Center...

Tower Semiconductor teams up with NVIDIA to launch 1.6T silicon photonics optical modules, enabling double bandwidth for AI data centers and next-gen networking.

AI boom pushes hyperscaler CapEx towards USD 830 billion in 2026

TSMC joins Applied Materials' EPIC Center as founding partner Applied Materials has announced a new innovation partnership with TSMC at its EPIC Center in Silicon Valley, where the

POET Technologies and Lumilens Advance Wafer-Level Photonic

Joint development and sale of high-speed optical modules based on the Electrical-Optical Interposer (EOI) — a new paradigm for scale in the optical layer of AI compute
